

GENERATOR CRYSTALS

Generator Crystals have Six Sides or Faces terminating to a point at the top center of the crystal.

Generator Crystals whether naturally formed or cut and polished, still act as Generators because of their Atomic Structure.

“The Book of Stones” calls them “Earth energy batteries” because they store and allow one to easily access the Electromagnetic energy of the Earth Aura. This Universal Vibration can be perceived as ‘OM’

Generator Crystals harvest this vibrational energy and amplify it directing it towards the apex of the crystal. They can also amplify the vibrational energies of other stones or crystals by placing the, next to it, or placing the generator on top of them. It collects their vibrations and projects them through the apex.

“The Crystal Bible” further states that each of the six faces can be programmed independently for a specific purpose, making it extremely useful for generating multiple healing energies when centered in a group of stones or crystals.

Generator Crystals are akin to Pyramids in that Pyramids collect the energy and direct it downward, {see Spiritnest.com}. Four to seven Generator Crystals can be used. To further augment the energy, place stones in the grid between the Crystal Generators.
